

KIRKBY MALZEARD CE PRIMARY SCHOOL

Policy Title: Curriculum Policy

Contact Person: Andrea Peacock

Rationale:

The curriculum is all the planned activities that we organise in order to promote learning, personal growth and development. It includes not only the formal requirements of the National Curriculum, but also the range of extra-curricular activities that the school organises in order to enrich the experience of the children. It also includes the 'hidden curriculum', or what the children learn from the way they are treated and expected to behave. We aim to teach children how to grow into positive, responsible people, who can work and co-operate with others while developing knowledge and skills, so that they achieve their true potential.

Ethos

Our school curriculum is underpinned by the values that we hold dear at our school. The curriculum is the means by which the school achieves its objective of educating children in the knowledge, skills and understanding that they need in order to lead fulfilling lives.

Our school is in full agreement with the values statement included in the introduction to The National Curriculum Handbook for Primary Teachers in England. These are the main values of our school, upon which we have based our curriculum:

- We value the way in which all children are unique, and our curriculum promotes respect for the views of each individual child, as well as for people of all cultures. We value the spiritual and moral development of each person, as well as their intellectual and physical growth.
- We value the importance of each person in our community. We organise our curriculum so that we promote co-operation and understanding between all members of our community.
- We value the rights enjoyed by each person in our society. We respect each child in our school for who they are, and we treat them with fairness and honesty. We aim to enable each person to be successful, and we provide equal opportunities for all the children in our school.
- We value our environment, and we aim, through our curriculum, to teach respect for our world, and how we should care for it for future generations, as well as our own.

Aims & Objectives:

The aims of our school curriculum are:

- to enable all children to learn and develop their skills to the best of their ability;
- to promote a positive attitude towards learning, so that children enjoy coming to school, and acquire a solid basis for lifelong learning;
- to teach children the basic skills of literacy, numeracy and information communication technology (ICT);
- to enable children to be creative and to develop their own thinking;
- to teach children about their developing world, including how their environment and society have changed over time;

- to help children understand Britain's cultural heritage;
- to enable children to be positive citizens in society;
- to fulfil all the requirements of the National Curriculum and the Locally Agreed Syllabus for Religious Education;
- to teach children to have an awareness of their own spiritual development, and to understand right from wrong;
- to help children understand the importance of truth and fairness, so that they grow up committed to equal opportunities for all;
- to enable children to have respect for themselves and high self-esteem, and to be able to live and work co-operatively with others.

Organisation and planning

We plan our curriculum in three phases. We agree a long-term plan for each key stage. This indicates what topics are to be taught in each term, and to which groups of children. We review our long-term plan on an annual basis.

With our medium-term plans, we give clear guidance on the objectives and teaching strategies that we use when teaching each topic. As we have adopted the National Literacy and Numeracy Strategies for our school, we take our medium-term planning directly from the guidance documents. We use the national schemes of work (QCA) for much of our medium-term planning in the foundation subjects.

Our short-term plans are those that our teachers write on a weekly or daily basis. We use these to set out the learning objectives for each session, and to identify what resources and activities we are going to use in the lesson.

In the Foundation Stage we adopt an inter-disciplinary topic approach to curriculum planning. We plan the curriculum carefully, so that there is coherence and full coverage of all aspects of the National Curriculum and early learning goals, and there is planned progression in all curriculum areas.

At Key Stage 1 and 2 the curriculum at our school places a great emphasis on the core and foundation subjects and we aim to deliver a rich and exciting, broad and balanced curriculum through a thematic approach wherever possible. We ensure that over the three terms of the academic year, each child has the opportunity to experience the full range of National Curriculum subjects.

Children with special needs

The curriculum in our school is designed to provide access and opportunity for all children who attend the school. If we think it necessary to adapt the curriculum to meet the needs of individual children, then we do so only after the parents of the child have been consulted.

If a child has a special need, our school does all it can to meet these. We comply with the requirements set out in the SEN Code of Practice in providing for children with special needs (refer to Special Needs Policy). If a child displays signs of having special needs, his/her teacher makes an assessment of this need. In most instances the teacher is able to provide resources and educational opportunities which meet the child's needs within the normal class organisation. If a child's need is more severe, we consider the child for a statement of special needs, and we involve the appropriate external agencies when

making this assessment. We always provide additional resources and support for children with special needs.

The school provides an Individual Educational Plan (IEP) for each of the children who are on the special needs register. This sets out the nature of the special need, and outlines how the schools will aim to address the need. It also sets out targets for improvement, so that we can review and monitor the progress of each child at regular intervals.

The Foundation Stage

The curriculum that we teach in the reception class meets the requirements set out in the Early Learning Goals. Our curriculum planning focuses on these and on developing children's skills and experiences, as set out in this document.

Our school fully supports the principle that young children learn through play, and by engaging in well-planned structured activities. Teaching in the Foundation Stage builds on the experiences of the children in their pre-school learning. We do all we can to build positive relationships with pre-school providers in the area.

Assessment is ongoing and enables us to be informed of each child's progress towards the Early Learning Goals. Assessment forms an important part of the future curriculum planning for each child.

Key skills

The following skills have been deemed 'key skills' in the revised National Curriculum:

- communication;
- application of number;
- information technology;
- working with others;
- improving own learning and performance;
- problem-solving.

All subject areas contribute to a child's progress in these skills. Our school believes that all children need to make good progress in these skill areas in order to develop to their true potential.

Roles & Responsibilities:

The role of the subject leader

The role of the subject leader is to:

- provide a strategic lead and direction for the subject;
- support and offer advice to colleagues on issues related to the subject;
- monitor pupil progress in that subject area;
- provide efficient resource management for the subject.
- examine long term and medium term planning.

It is the role of the subject leader to keep up to date with developments in their subject, at both national and local level. They review the way the subject is taught in the school and plan for improvement. This development planning links to whole-school objectives. The subject leader reviews the curriculum plans and examples of pupils work for their subject,

ensuring that there is full coverage of the National Curriculum and that progression is planned into schemes of work.

Action to be taken:

Monitoring and review

Our governing body is responsible for monitoring the way the school curriculum is implemented. We have named governors for all subjects. The governors liaise with the subject leaders of these areas, and monitor closely the way the school teaches these subjects, making visits to classrooms to observe lessons in line with the agreed policy for Governor Visits. They also receive annual reports from Subject Leaders to keep them informed of progress in each curriculum area.

The Head teacher is responsible for the day to day organisation of the curriculum. The Head teacher monitors weekly lesson plans for literacy and numeracy and the medium term plans for all other subject areas for all teachers ensuring that all classes are taught the full requirements of the National Curriculum, and that all lessons have appropriate learning objectives. In addition the Head teacher monitors the weekly overview for the areas of provision for the Foundation Stage.

Who will be responsible for monitoring? Head teacher, Staff and Governing Body.

Adopted by Governing Body (Date)
